Over 70,000 ties fully repaid for the time spent at the lecture. At this lecture the first publis demonstration of the baloptica ment were duly advertised, no one has will be made. This is kindly furnish- as yet made the offer to supply them.

"It would thus appear that the local supplies of hardwood are being steadily reduced) for hundreds of thousands of hardwood ties have been and are still being exported from this State to the other States of the Commonwelath as well as oversea, and is now becoming a serious question as to where the supplies required for local consumption will be drawn from. Assuredly there is still a fair supply of growing timber suitable for this purpose, but it is . only a matter of time when, unless the greatest care be taken of reforestation, it will ben ecessary for the Works Department and also the Railroad Department to purchase their requiremens from districts beyond the State borders. This condition of affairs is peculiarly interesting in view of the fact that the railroad lines of the State are controlled and operaed by the State Government and not by private companies or corporations."

BIGGEST YIELD OF OIL THIS YEAR.

The California Oil World of Bakersfield estimates that the total output of petroleum in California will reach between 89,000,000 and 90,000,000 bar rels, based upon the total for the first six months of 1912. This gross total for the six months is 43,716,72 barrels, and if the ratio continues the same during the last six months the total for the year will be 87,433,404 barrels. If several big gushers should come in, this total will be slightly increased to the World's figures. It is gratifying to note that there

is a steady gain in shipments, notwithstanding the low prices for the poorer quality of crude fuel oil. As the demand for the products of petroleum is constantly increasing all over the world there will be no limit to the industry and there will be no such thing known as an oversupply.

It is only a question of time when you will build a walk of cement, You can get the crushed rock for the foundation from the Honolulu Construction and Draying Co., Ltd., Queen

Merchant street.

Keep Cool!
